ISSUES ARISING REPORT FOR Cratfield Parish Council Audit for the year ended 31 March 2016

## Introduction

The following matters have been raised to draw items to the attention of Cratfield Parish Council. These matters came to the attention of BDO LLP during the audit of the annual return for the year ended 31 March 2016. This report must be presented to a full meeting of the smaller authority for review.

The audit of the annual return may not disclose all shortcomings of the systems as some matters may not have come to the attention of the auditor. For this reason, the matters raised may not be the only ones that exist.

The matters listed below are explained in further detail on the page(s) that follow;

- Section 2 Trust Funds Disclosure Note
- Fixed assets included at a valuation
- Asset Register

The following issue(s) have been raised to assist the council. The council is recommended to take action on the following issue(s) to ensure that the council acts within its statutory and regulatory framework.

## Fixed assets included at a valuation

What is the issue?

It has come to our attention that fixed assets have been included in box 9 at a valuation amount. All assets should be included at cost.

A smaller authority should not adjust assets disclosed on the annual return for revaluations, depreciation or impairment. The only movements on assets should be the cost of additions or the cost value of any disposals.

Why has this issue been raised?

The accounting treatment is not in compliance with proper practices.

What do we recommend you do?

The Practitioners Guide states that all assets should be held at cost. In future the smaller authority should review the current Practitioners Guide to ensure that the are accounting for assets correctly.

The cost value of assets is not expected to change unless an asset is ever disposed of or scrapped.

Further guidance on this matter can be obtained from the following source(s):

Governance and Accountability in Local Councils in England - A Practitioners' Guide, NALC/SLCC

## Asset Register

What is the issue?

The smaller authority's asset register is incomplete and does not contain some or all of the following information for each asset held;

- date acquired;
- purchase cost, and
- location held.

Why has this issue been raised?

The smaller authority is at risk of not safeguarding its assets.

What do we recommend you do?

The smaller authority must update its fixed asset register to include date acquired, purchase cost and location held of each asset held as soon as possible or in any event before the end of the current financial year.

An asset register should be in existence to help ensure that the recorded value of assets and investments is, as far as possible, accurate and to ensure the smaller authority is safeguarding its assets. The accuracy of such a register should be verified by the Internal Auditor in their annual review of the internal controls of the smaller authority.

Further guidance on this matter can be obtained from the following source(s):
